

The University of Jordan

Community Medicine (0505205)/ Second Year Medical Students

First semester 2021/2022

Based on the articles provided, answer the following questions.

1. Article 1: What are the commitments of the new Astana declaration for Primary Health Care conducted in 2018?

- Answer: a) “make bold political choices for health across all sectors.”
- b) “build sustainable primary health care.”
- c) “empower individuals and communities.”

2. Article 2: What are the elements of the “**Tripod of neglect**” in the Inter Sectoral Collaboration (ISC) in Primary Health Care? (Hint: See Figure 1).

- Answer: a) Practical initiatives from the health sector towards intersectoral collaboration are lacking
- b) ‘Non-health’ PHC strategies are outside the statutory control of the health sector
- c) PHC per se is not on the agenda of non-health’ sectors

Note: You are not required to submit an assignment regarding the answers to these questions. However, these articles are exam required material.
